

F. CORRY PAYNE. III. M.D.

SPECIALTIES

KNEE

BIOGRAPHY

Dr. F. Corry Payne's busy practice includes patients of all ages, but the Dallas native admits feeling "right at home" treating even the youngest of athletes. For the past two decades, the orthopedic surgeon has repaired the knee injuries – his specialty being ACL reconstructions – and the bumps and bruises commonly found in athletes ranging from novice competitors to high-level athletes.

Board-certified in orthopedic surgery since 1987, Dr. Payne serves as a team physician to the Dallas Independent School District and Lake Highlands High School. He has also volunteered with Dallas Cup Soccer, World Cup Soccer and the Women's U.S. Olympic Ski Team. He is a Clinical Professor in Orthopedic Surgery at the University of Texas Southwestern Medical School.

Dr. Payne follows in the footsteps of his father, a popular Dallas pediatrician for more than 45 years. He attended SMU and UT Southwestern Medical School. While in medical school, he was involved in sports medicine research including three months at the famed August Krogh Institute for the Theory of Gymnastics in Copenhagen, Denmark. He completed his orthopedic surgery training at UT Southwestern followed by two fellowships, knee surgery and sports medicine.

Dr. Payne, a father of four, enjoys attending sporting events and concerts with his wife and kids. During the summer, he escapes the Texas heat by visiting his wife's family in the Utah mountains and their family house boat on Lake Powell.

CURRICULUM VITAE

CERTIFICATION

Board Certified by the American Board of Orthopedic Surgery in 1987

TRAINING

Undergraduate

Southern Methodist University, Dallas, TX; 1969 – 1974

Degree – Bachelor of Arts, Political Science

Graduate

University of Texas Southwestern Medical School, Dallas, TX 1975 – 1979

Degree – Doctor of Medicine

Research Training

Division of Cardiology Basic Science
